

Brian Wynn
Fire Chief - Whitecourt Fire Department

Brian Wynn got his start in the fire service in 1993 with the Whitecourt Fire Department, and got his dream job as Fire Chief in 2013. He was involved with the residents of the Slave Lake area where he witnessed the devastation of a community from a wild fire in 2011. He attended his first FireSmart community series in Slave Lake and this planted the FireSmart seed. With local support from Alberta Agriculture and Forestry he started driving FireSmart projects in Whitecourt with funding from FireSmart and FRIAA. Brian attended the FireSmart community series in Rocky Mountain House in 2015 with his Parks and Recreation manager. Whitecourt became a recognized FireSmart community and hosted the community series in 2017, where he co-hosted a workshop with Agriculture and Forestry. Brian keeps the foot on the throttle driving all FireSmart principles in the surrounding area and keeps Agriculture and Forestry heavily involved in all projects. Brian recently joined FireSmart as a director and has been involved with many projects.
