

Jeff Erwin

Jeff has been a Wildland Urban Interface Specialist with the Manitoba Office of the Fire Commissioner for 12 years where he co-ordinates all aspects of structural protection including training and equipment for the OFC. Through the Emergency Services College run by the OFC Jeff trains the Manitoba Fire Service in wildland and urban interface firefighting tactics and strategies. Jeff also runs the Provincial FireSmart Program in conjunction with the Manitoba Wildfire Service working with communities and municipalities to implement FireSmart solutions.

Previous to the OFC Jeff worked for the Manitoba Wildfire Program in various positions including 9 seasons as an air attack officer, 2 years as a fire operations officer and 5 years as an initial attack crew member/leader.
